MEASURING INSTUCTIONS

All measurements should be neat - not too tight to gather skin, nor so loose that the tape slips.

Chest - Measure with arms at sides, lungs relaxed, above nipples and just below shoulder socket.

Waist - Measure at narrowest part of stomach relaxed.

Buttocks - Measure around widest part of buttocks.

Thigh - Measure at highest point of crutch. If taken over clothing ensure pockets are empty and take firm measurement.

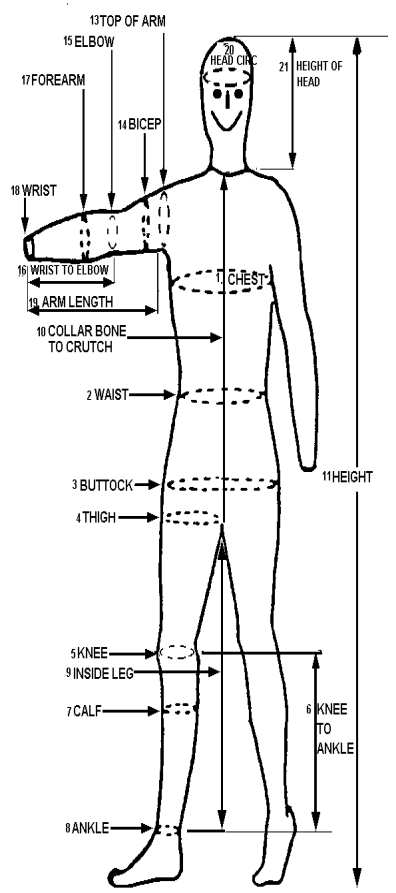
Knee Joint - Measure around joint of knee.

Calf - Measure around fullest point of muscle.

Ankle - Measure just above knuckle.

Collar Bone to Crutch - Measure centre point of collar bone to **underneath centre** of crutch.

Inside Leg - Measure must be taken at highest point of crutch to just above ankle knuckle.

Height - Accurate measurement is essential to all types of suits.


NOTE! NO RESPONSIBILTY ACCEPTED FOR WRONG MEASUREMENTS.
